

## PRESS RELEASE

16 October 2024

### AVAILABILITY OF AUTOMATION ANYWHERE PRODUCT RANGE

1. Vita Technologies and Solutions (VitaTech), a Singapore-based technology company, has reached an agreement with Automation Anywhere Inc (AAI), an American company from San Jose, California, USA, on the distribution and availability of key AI-powered automation technologies in Singapore and ASEAN. With expertise in artificial intelligence, machine learning and business technologies from Automation Anywhere, VitaTech customers will enhance productivity and efficiency capabilities.
2. VitaTech is happy to announce the availability of the following products and solutions to its customers and Value-Added-Resellers (VARs):

#### AI Systems:

- a. AI Agent Studio - AI Agents assigned for cognitive tasks with audit capabilities.
- b. Automator AI - Set new records for automated development (generative) lifecycle.
- c. Intelligent Document Processing - Document processing with AI, NLP, Computer Vision and ML for data extraction and document processing workflows.
- d. Process Discovery - Capture process data, discover and define workflows, analyze and inform decision makers.

#### Automation Systems:

- e. Automation Workspace - Increases productivity by harnessing AI, RPA, APIs for automation
- f. CoE Manager - Out-of-the-box solution to manage automation program lifecycle performance
- g. Citizen Developers - Apply growth blue prints, implement workflows and empower end-user developers (training)
- h. Bot Store - Work-ready and packages for ready-made automations (AI driven).
- i. Integrations - Development of workflows integrated through APIs.

**Mr. Roger Portman**, VitaTech General Manager (Distribution) opined, “Automation Anywhere is a well-known technology company offering cutting-edge products, services and solutions for AI-driven business enhancing technologies. We are excited by this addition to our portfolio as AA products fit into our vision of having a future-ready technology portfolio which adds true value to our customers and partners. Like AA, VitaTech is a company that leverages on the most contemporary technologies such as AI and Machine Learning. We are happy to offer this range so that all VitaTech stakeholders can truly harness the power of AI.”
